DETAILED ACTION

Claim Objections

1. Claims 3-10 and 12-15 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 3-10 and 12-15 have not been further treated on the merits.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-2 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is first noted that the claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Further, a claim in which one ingredient is defined so broadly that it reads upon a second does not meet the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Ferm and Boynton*, 162 USPQ (BdPatApp & Int 1969.) In the instant case, the one or more substances having film-forming, corrosion-inhibiting and hydrophilic properties can also be capable of conferring antimicrobial properties and hence any ratio would be meaningless. In terms of the claimed ratio, it is unclear what substance represents the "2" and what substance represents the "100", particularly given that the specification fails to provide any working examples.

4. Hence, given the lack of clarity of the claims, a prior art rejection has not been included at this time.
